Graduated *Summa Cum Laude*

China Study Abroad Program

January 2025

“China in World Affairs”

Authored a report on China’s green energy policy efficiency

Japan Study Abroad Program

January 2024

“Japan Culture and Society”

Included transportation lectures, cultural activities, and demographic analysis

COURSE HIGHLIGHTS

Land Use Planning and Zoning: Law and Practice

The Land Development Process

Public Finance and Budgeting

Environmental Politics

Advanced GIS

Economics for Policy Analysis

Digital Cartography

Grant Writing

RELATED EXPERIENCE

Planning and Economic Development Intern

May 2026 — August 2026

City of Crystal Lake, IL Community Development

- Conducted a downtown parking utilization study of City-owned parking lots to support planning and economic development initiatives
- Completed cursory reviews of proposed developments for compliance with annexation, zoning, subdivision, and other municipal requirements, producing staff reports for PZC meetings
- Developed a new GIS asset-management layer documenting infrastructure and amenities within a City-managed park

GIS Intern

May 2024 — August 2024

City of Crystal Lake, IL Community Development

- Collaborated with the planning department to create community development maps to support planning initiatives and public communication
- Supported Public Works by mapping residential water valves, improving the efficiency of maintenance operations
- Maintained a public tree inventory database

CRS Intern

May 2023 — May 2024

River Action Non-Profit; Davenport, IA

- Collaborated with local city officials to develop flood safety and preparedness plans, enhancing community resilience
- Analyzed the FEMA SFHA GIS layer to assess flood risk for residential areas, providing critical data informing local mitigation strategies
- Developed grant proposals for stormwater management initiatives, securing funding that supported local infrastructure improvements

Research Assistant

February 2022 — May 2022

Augustana College, Rock Island, IL

- Conducted surveys and interviews, resulting in a comprehensive data analysis that supported key project findings
- Researched historical records of Augustana College property acquisitions, providing valuable insights for development and planning

PROJECTS AND REPORTS**Daylighting Feasibility Report of Candlelight Creek**

Fall 2025

Undergraduate Capstone, Augustana College

- Conducted applied environmental planning research evaluating the feasibility of daylighting a buried urban stream in a highly developed watershed
- Collaborated with a research team to produce technical figures, maps, and written analysis for a 130+ page professional report formatted to academic and planning standards

Accuracy of Esri's Tree Crown Detection Model Utilizing UAV Imagery

Fall 2025

Undergraduate Thesis, Augustana College

- Authored an independent undergraduate honors thesis evaluating the accuracy of Esri's tree crown detection model using UAV imagery, GIS workflows, and field-based validation
- Used GIS tools to analyze spatial data and create clear, decision-support maps

TECHNICAL SKILLS: Esri ArcGIS Suite, Pix4DMapper Software, Microsoft Excel, DJI Drone Operation, Python, QGIS, Adobe Illustrator, QGIS, R analysis, Trimble GNSS receivers, GPS/GNSS data collection

SOFT SKILLS: Complex Problem-Solving, Strong Communication, Collaboration, Conflict Resolution, Project Management
